

# FUJITSU NetCOBOL®

Eliminate COBOL runtime fees for good

Are you tired of being locked into a COBOL compiler that is expensive and cumbersome to use? Break up with your current compiler today and switch to Fujitsu NetCOBOL®. NetCOBOL does not charge you any runtime fees. In addition, you can add new functionality to your COBOL with modern programming languages (C#, C++, and VB), giving you the ability to leverage the powerful, agile Microsoft® .NET Framework.

## How Can You Benefit from FUJITSU NetCOBOL®?

### **ELIMINATE COBOL RUNTIME FEES - PERMANENTLY**

NetCOBOL never charges any runtime fees for distributing applications, which provides big cost savings and prevents administrative headaches.

### **GAIN HIGH PERFORMANCE & RELIABILITY**

For years, NetCOBOL has delivered impressive performance and rock-solid stability. It is easy to install and run, without any complex options or heavy technical support.

### **INTEGRATE WITH MICROSOFT VISUAL STUDIO® & ECLIPSE**

NetCOBOL enables the use of an interactive debugger with a range of features, such as break point, varieties of execution control, data item monitoring and updates, and code coverage statistics. Automated debugging lets you record, store, and replay debug commands.

### **COMBINE LEGACY & CONTEMPORARY DEVELOPMENT SKILL SETS**

With NetCOBOL, you will bring together mainframe and non-mainframe programmers to work more efficiently.

## TAKE BUSINESS TO THE NEXT LEVEL

NetCOBOL empowers modernization and future readiness through the capability to replace text screens with graphics, develop customer web portals, and utilize a relational database.

## FUTURE PROOF APPLICATIONS

Whether you want to move to on-site distributed systems or to the cloud, NetCOBOL can easily adapt to your business needs. NetCOBOL for .NET runs COBOL on Microsoft Windows Server® and Microsoft Windows Azure®, the most advanced platforms in the cloud.

## Which NetCOBOL Version is Right for You?

### NETCOBOL FOR .NET

- » Create managed verifiable executables for Microsoft .NET
- » Create executables for Microsoft Windows
- » Compiler for Mainframe Migration - CICS
- » Compiler for Mainframe Migration - Batch
- » ODBC
- » Microsoft SQL Server
- » Oracle

### NETCOBOL FOR SOLARIS

- » Create COBOL Programs for Solaris (SPARC®)
- » Oracle

### NETCOBOL FOR WINDOWS®

- » Create executables for Microsoft Windows
- » Create traditional (unmanaged) 64 bit executables
- » ODBC
- » Microsoft SQL Server
- » Oracle

### NETCOBOL FOR LINUX

- » Create COBOL programs for Red Hat or SUSE Linux
- » ODBC
- » Oracle

Adaptigent is a software technology company offering business solutions to harness the power of APIs for innovation and growth. A global distributor of the Fujitsu NetCOBOL compiler, Adaptigent seamlessly integrates core systems. More than 2,500 organizations globally trust Adaptigent solutions.
